Discount for long term rentals - 3 %: Rental time 15 to 25 days -5%: Rental time more than 25 days

Your easy way out.

Your McRent-Partner

Urban

Our Urban Group is ideal for a short trip. The size and driving feeling of the campervan is similar to a van. Campervans are smaller than motorhomes but have a lot of storage space. The vehicles are perfect for active travellers who want to travel a lot at the holiday destination. Depending on the model, they offer space for two or four people.

Family

Our Family Group is ideal for families. The vehicles offer more space for cooking, playing or sleeping. The Family Standard group offers room for four people thanks to the pull-down bed above the seating group. The overcab models have room for up to six people with a sleeping area above the driver's cab and the conversion of the seating group. So the family holiday can start.

Compact

Our Compact Group is ideal for your first holiday in a motorhome. The compact size of the semi-integrated or integrated vehicles makes them ideal for a city trip. These motorhomes are smaller and so more easily manoeuvrable. Ideal for two people or in the case of the integrated motorhomes with a pull down bed above the driver's cap for up to four people.

The shown motorhomes / layouts are only examples of the different groups.

Comfort

Our Comfort Group offers a more comfortable and luxurious motorhome. The greater sense of space makes the motorhomes ideal for longer journeys and stays with up to four seats and beds. They provide room to rest, relax and just enjoy your motorhome holidays. Fully-integrated motorhomes offer a lot of space due to the integration of the driver's cabin.
